PRICE LIST OF INTERNAL BLINDS
AND MOSQUITO NETS

2018

Release date 03.04.2018

TABLE OF CONTENT

Vertex S.A. manufactures internal and external blinds, garage gates, awnings and mosquito screens. We have been manufacturing products tailored to the needs of our Customers. The range of our products has been growing allowing for both changes in market trends and expectations of Customers.

We offer all types of internal roller blinds as well as horizontal and vertical blinds, whose production is based on our exclusive construction systems and the usage of fabrics from the world leading manufacturers. Vertex catalogues comprise a wide variety of swatches selected by our highly experienced specialists who go on current market trends.

External blinds are manufactured using Polish and European components. The production process is carried out on the most modern machinery, which enables us to uphold the highest production standards. Apart from our regular products we are open to cooperation with Customers searching for dedicated products. Among our Customers are companies handling distribution and assembly of blinds systems.

The main goal of our company is to satisfy the requirements of our Customers. We take full responsibility for our products. Therefore we have been cooperating successfully with a great number of domestic as well as foreign Customers.

Tube	Ø 42 mm	Ø 42 mm	Ø 50 mm	Ø 50 mm	Ø 65 mm	Ø 65 mm

Attention:

- Roller blind is equipped with manual chain drive. Electrical drive is possible with additional charge.
- In roller blinds with big surface it is necessary to stich few fabric pieces together (always horizontally) which may not always be possible with patterned fabrics.
- Using tube’s connector gives possibility to make two or more roller blinds with one common electric drive.

Note: In the area marked in green, PVC hangers are used. Metal hangers +3,80 EUR/ set.

Note: The prices for complete hand-operated roller shutters with fabric group A0, A1 or A2 are given in the table.

Attention:

- Total dimension is required for calculation.
- Price of product which exceed measurement belongs to higher division.
- Roller blinds made with oriented pattern and with A5, A6, B3 fabrics group have standard height 180 cm. Above this height fabric is cut along the length of fabric-roll, which may mean a reverse of the pattern by 90°.
- Table included prices division. In measurement important are technical details.
- Fabric is narrower than total dimension – see technical details.
- All prices are net prices, there isn’t included 23% polish tax.

EXTRA CHARGES FOR LARGO

A0, A1, A2	-
A4, B1, C1, C2	+ 6,50 EUR/m²

Passionata PCV = price list Passionata AL - 20% (only up to width 140 cm)

Attention:

- Price list refers to complete roller blinds with chain drive, cassette and flat guiding profiles.
- Price of product which exceed measurement belongs to higher division.
- Roller blinds under 0,5 m of total width are calculated as 0,5 m.
- For roller blinds with cassettes we suggest to use fabrics from group A and C. Using fabrics from group B may cause sticking the blackout side to the glass. Damaged fabric may be a result.
- Roller blinds made with oriented pattern and with A5, A6, B3 fabrics group have standard height 180 cm. Above this height fabric is cut along the lenght of fabric-roll, which may mean a reverse of the pattern by 90°.
- As a standard bottom rail is cutted under 90°. If window glazing slat has irregular shape or high angle, we can cut bottom rail under 45° (no possibility to use bottom rail end caps). It must be indicated before place an order.
- Table included prices division. In measurement important are technical details.
- All prices are net prices, there isn’t included 23% polish tax.

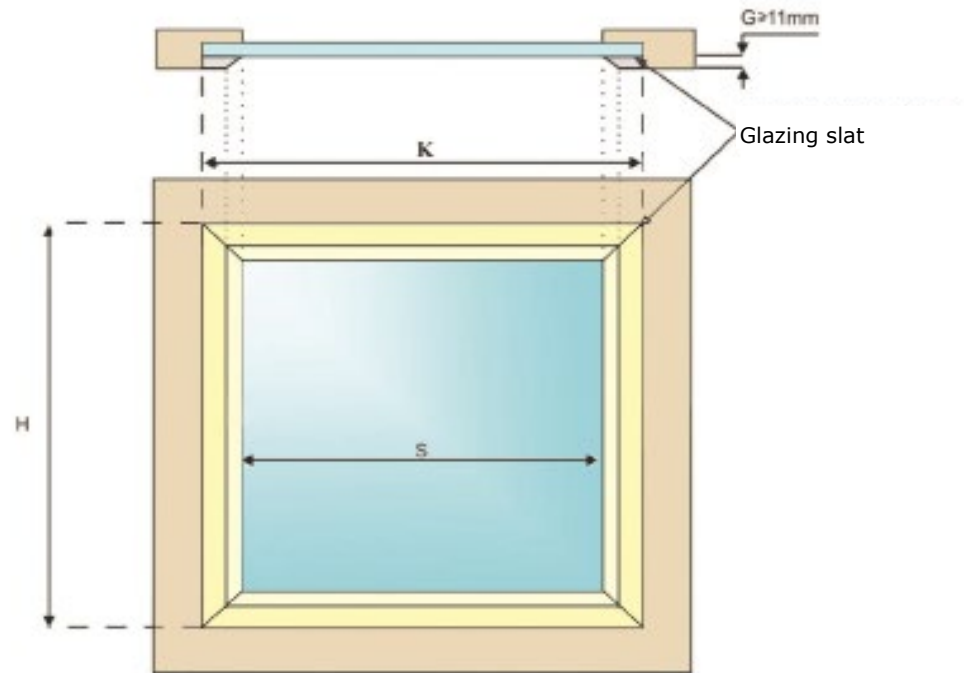

EXTRA CHARGES - PASSIONATA, PASSIONATA PLUS

Weight chain (white and brown)	0,30 EUR/pc.	
Chain tensor (white and brown)	0,80 EUR/pc.	
Passionata - wood imitation veneer (list of colors on p.74)	14,60 EUR/lm	total width
Lacquering aluminum elements into RAL color*	17,10 EUR/m²	
Printing on fabric (Minimum printing area is 1 m²)	38,00 EUR/m²	Printings only on fabric: white A2 and white B2
Electrical drive	page 122	
Frill	5,80 EUR/lm width	

* Except glitter colors page 137

All prices are net prices, there isn't included 23% polish tax.

MEASUREMENT

- K – distance between end of sides glazing slats
- S – width of glass with seals
- H – height of roller blind – distance between edge of top glazing slat and end of bottom glazing slat
- G – depth of glass in regard to window frame

Sizes needed for offer

- K – width
- S – width of glass with seals
- H – height
- G – depth of glass in regard to window frame (min. 11 mm)
-

When K – S is smaller or equal 44 mm – we use guiding profile 30x1 mm
When K – S is bigger than 44 mm – we use guiding profile 37x1 mm

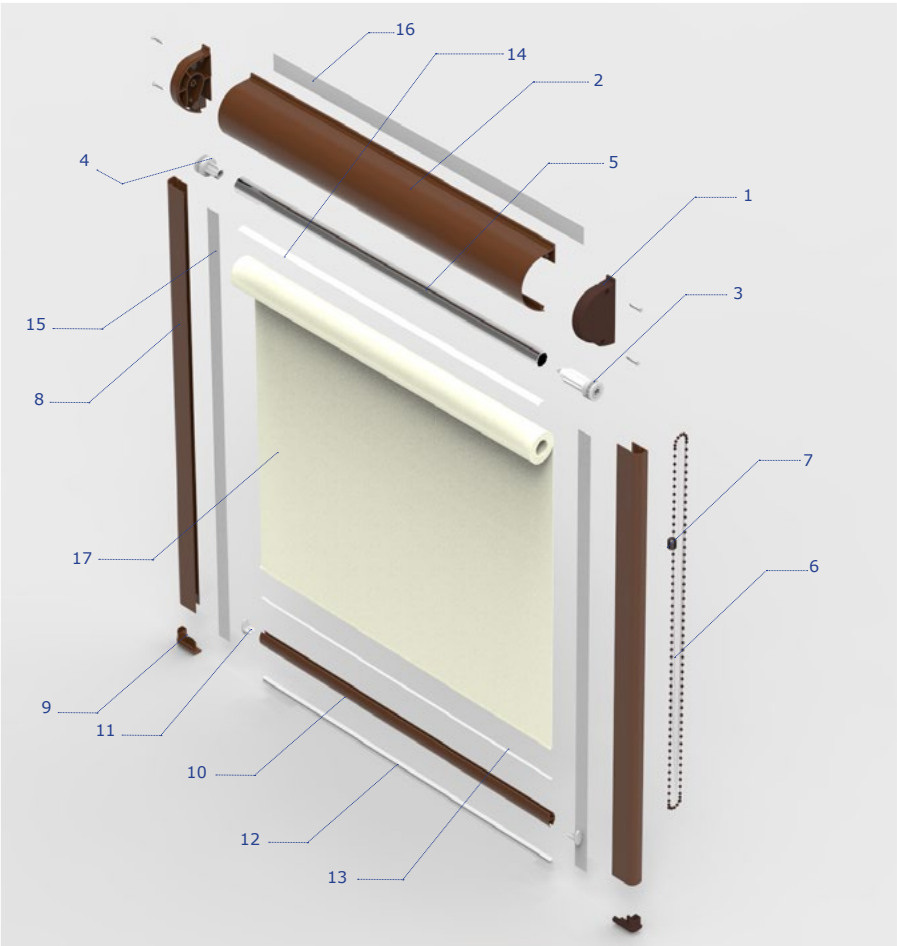

Attention:

Width "S" is not equal for width of fabric. To place an order it is possible to give us additional size – width of fabric

MEASUREMENT

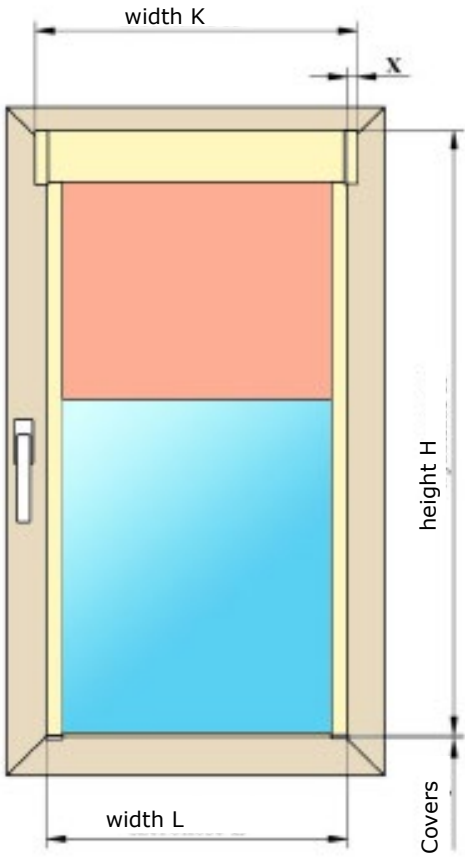

Roller blinds with cellular guiding profiles are mounted on window frame.

Dimension needed to place an order:

- L – width
- H – height
-

Attention:

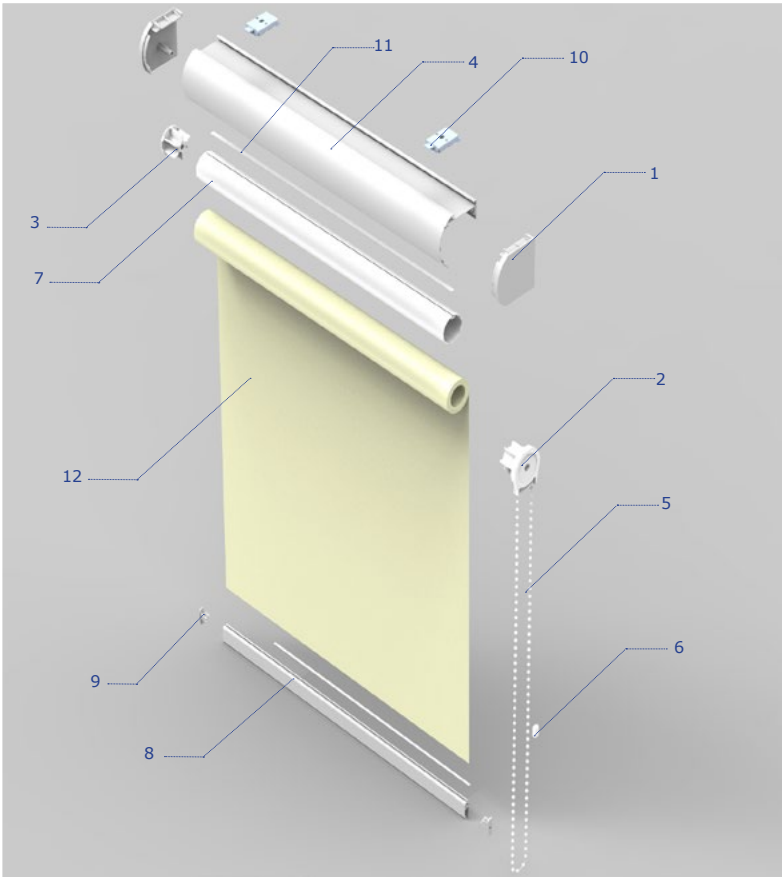

- Height of cassette 70 mm (20 mm width of glue surface)
- Width of guiding profile 28 mm (20 mm width of glue surface)
- Height of guiding profile 13,5 mm
- Sides of cassette outshoot 2mm width of guiding profiles
- K - L = 4 mm
- X = 2 mm
- Covers for guiding profiles increase height about 7 mm

Chain tensor	+ 0,80 EUR/pc.	
Passionata – extra charge for color wood grain (list on p. 100)	14,60 EUR/lm width	
Alu elements (cassette, guiding rails, bottom rail) painting RAL color	5,80 EUR/lm width	

* Except glitter colors page 137.
All prices are net prices, there isn't included 23% polish tax.

MEASUREMENT

Sizes needed for offer:

K – width
S – width of glass with seals
H – height
G – depth of glass in regard to window frame (min. 11 mm)

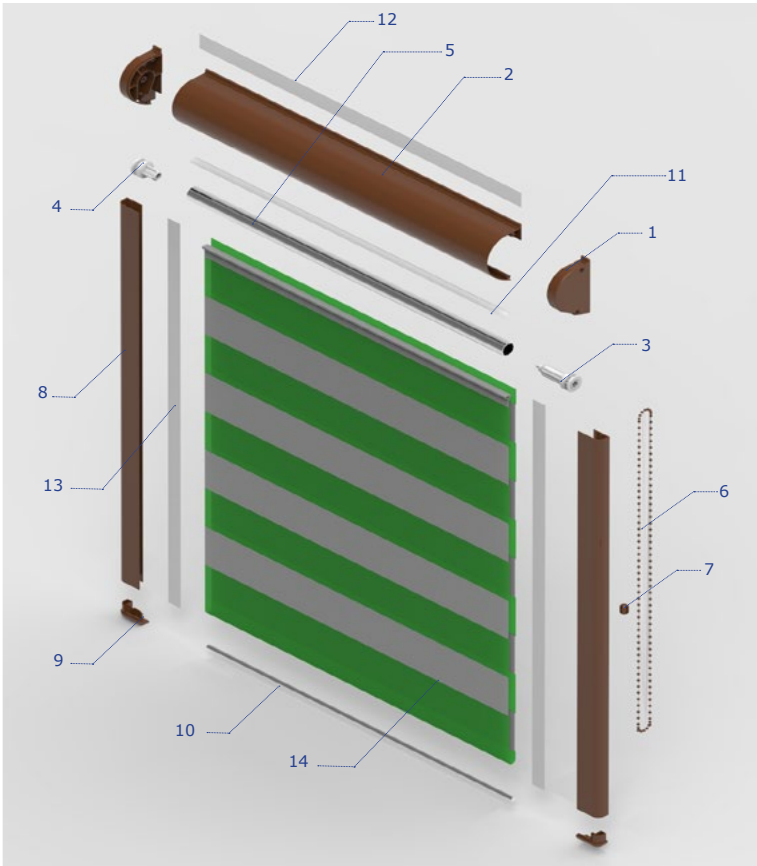

When K – S is smaller or equal 44mm – we use guiding profile 30x1 mm
When K – S is bigger than 44mm – we use guiding profile 37x1 mm

Attention:
Width "S" is not equal for width of fabric. To place an order it is possible to give us additional size – width of fabric.

DAY/NIGHT ROLLER BLINDS IN CASSETTE – SUITA

Standard:

EXTRA CHARGES FOR DAY/NIGHT ROLLER BLINDS SUITA

Type	Price	Notice
Chain mini bottom weight	0,30 EUR/pc.	
Chain uni bottom weight	0,30 EUR/pc.	
Chain tensor	0,80 EUR/pc.	alternative to chain-locker
Suita – extra charge for color wood grain	18,30 EUR/lm width	
Alu elements (cassette, guiding rails, bottom rail) painting RAL color*	17,10 EUR/m²	
Non-invasive hangers	1,30 EUR/set	
Non-invasive hangers	1 EUR/set	
Electrical drive	page 122	

* Except glitter colors page 137.

All prices are net prices, there isn’t included 23% polish tax.

MEASUREMENT

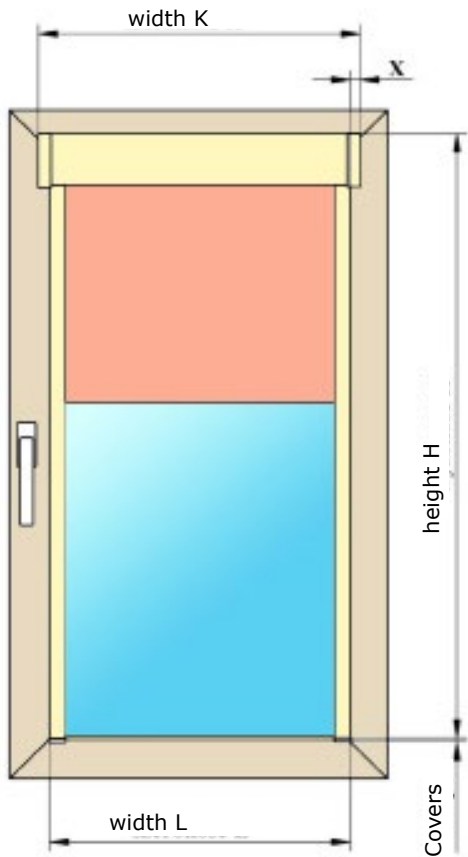

Roller blinds with cellular guiding profiles are mounted on window frame.

Dimension needed to place an order:

- L – width
- H – height

Attention:

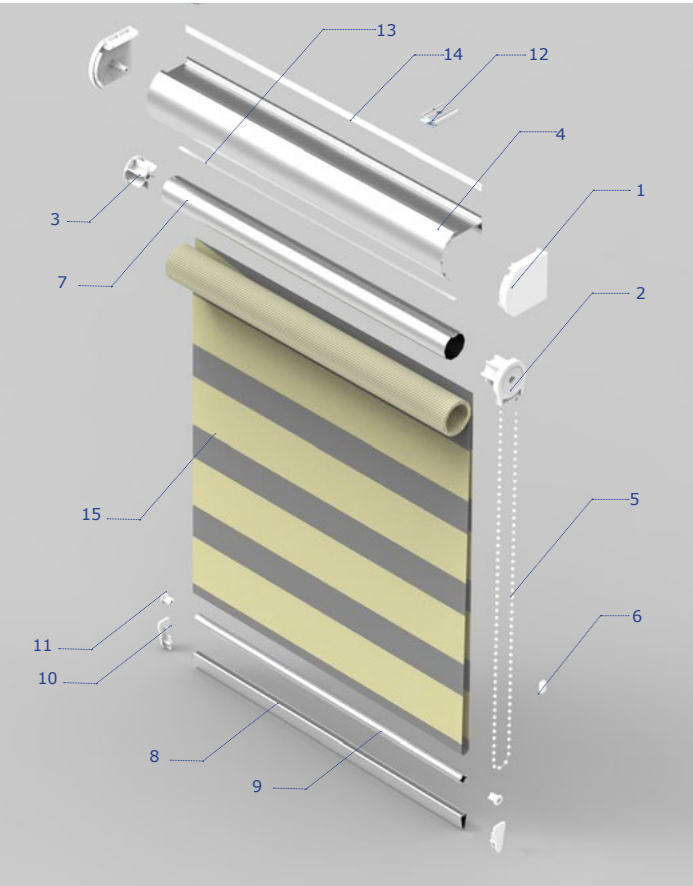

- Height of cassette 70 mm (20 mm width of glue surface)
- Width of guiding profile 28 mm (20 mm width of glue surface)
- Height of guiding profile 13,5 mm
- Sides of cassette outshoot 2 mm width of guiding profiles
- $K - L = 4\text{ mm}$
- $X = 2\text{ mm}$
- Cove rs for guiding profiles increase height about 7 mm

DAY/NIGHT ROLLER BLINDS IN CASSETTE – ELIZA

Standard:

- 1. Side cap
- 2. Mechanism
- 3. Support roller
- 4. Cassette (74x67 mm)
- 5. operation chain
- 6. Chain connector
- 7. Tube Ø38 mm
- 8. Bottom rail flat
- 9. Bottom rail round
- 10. Bottom rail end cap
- 11. bottom rail end cap
- 12. Hanger
- 13. Blockade tape
- 14. Blockade tape
- 15. Fabric

Attention:
In overshadowed area of price list anti-mosquito nets in frame are with stretcher-profile. It is possible to add strecher-profile to anti-mosquito nets from non-overshaded area. Strecher-profile is mounted on longer side of anti-mosquito net. On special customer`s request we can make anti-mosquito nets from shaded area without strecher-profile (product not covered with guarantee). Frame can deformate (called "waist cut-in").

** Colours RAL (except glitter colors).

MEASUREMENT

Hinged anti-mosquito net is giving the width and height along outside edges (total dimensions). This system doesn`t have own fra-me. The wing equipped with hinges is mounted directly to the surface of door frame or reveal. For the order is neccessary to give the information if anti-mosquito net must be left or right (analogously like with internal or external door - right, with the hinges on right side or left, with the hinges on left side. For the order, the height of middle bar must be defined - without this information middle bar will be mounted in the middle of the wing`s height.

Hingers requires 20 mm of side free space while installed to door frame or 30 mm of side free space while installed to reveal. Please remember about this while measuring and ordering. Sliding anti-mosquito nets - Width and height of the niche must be measured - after the width of sliding wing must be defined (the height must be defined basing on niche height). For calculation dimensions of anti-mosquito system is taken (wing width and niche height). If 2-wings anti-mosquito net is required, two 1-wing anti-mosquito nets must be measured and installed. For the order, the height of middle bar must be defined (measured from the bottom). Without this information middle bar will be mounted in the middle of the wing`s height.
