EXTERNAL BLINDS

External blinds are designed by using innovative technology solutions. They are made with mind of necessity of architects, investors, distributors and final users. System of external blinds gives absolute possibility of configuration the lamella's position what helps keep insolation level under control.

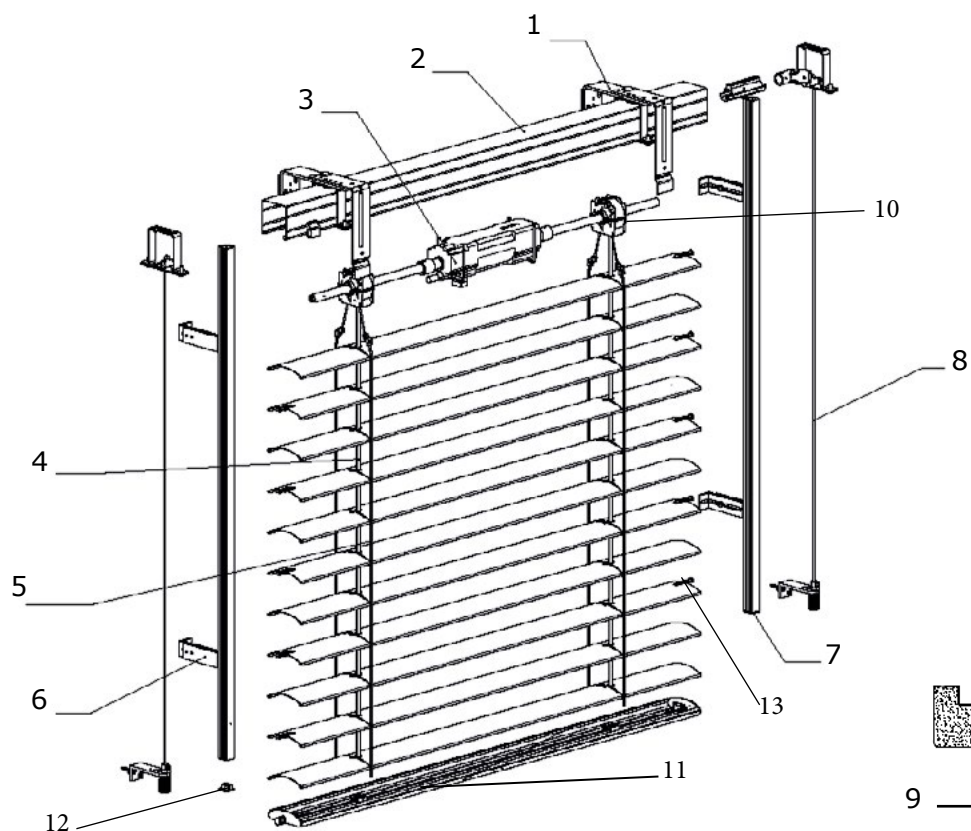

You can choose:

- type of lamella's,
- type of guiding rails (independent left and right),
- top hangers,
- type of cover sheet,
- operation.

III. Types of external blinds

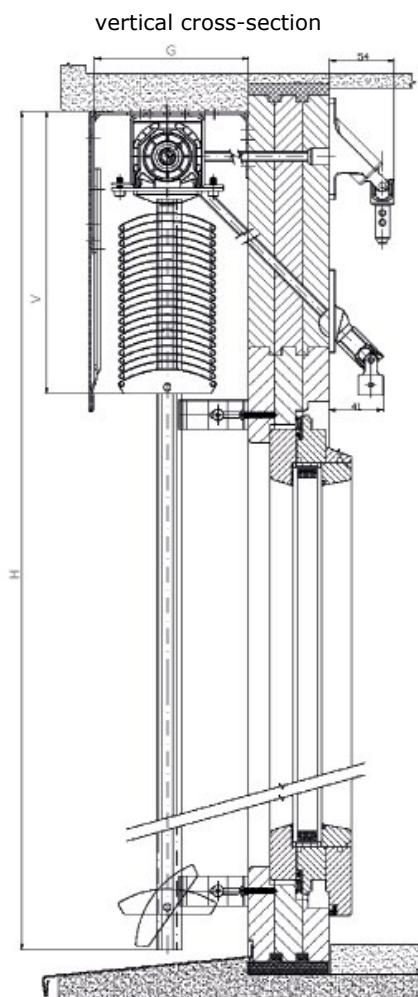

1. Lamella's C-80

External blind C-80 is equipped with aluminium lamellas: width 80 mm, thickness 0,42 mm, shape of „C“.

- Steel top rail 58x56 (galvanised)
- End list and guiding rails made with extruded aluminium
- Tape and ladder made with kevlar fibre (non-flammable fabric which resistant for stretching, breaking and mechanical damages)
- Aluminium lamellas in shape of „C“ made with sheet 0,42 mm

1.1. Technical details for C-80 lamellas

Definitions:

H- height of blind

V - height of batch

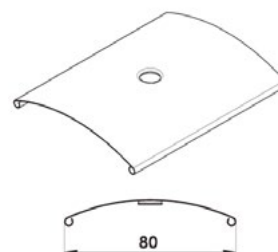

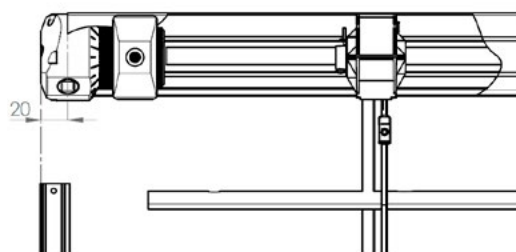

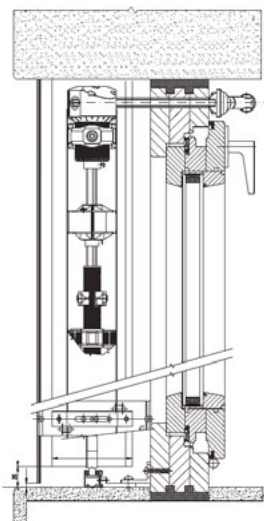

G - depth of cover sheet

(min. 130 mm, recommended 140 mm)

In standard:

- Guiding rails type 1 or 2 (in standard colors)
- Top rail hangers
- Lamellas C-80
- End list (in standard colors)
- Manual operation (crank with cardan joint 90°) or electrical operation (in standard Somfy J4WT motor or Geiger GJ56)

Top throw

* to calculate height of cover sheet we suggest to add 35 mm to batch height (table above) – it enable to cover top rail hangers and make sure that batch will be behind cover sheet.

All prices are net prices.

2. Z-90 external blinds

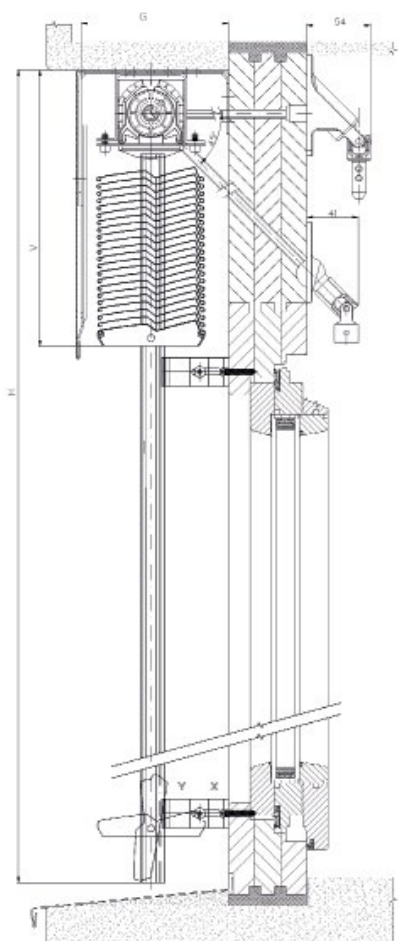

Aluminium lamellas in shape of „Z” made with sheet 0,42 mm (painting with polyester paint – smooth). Z-90 after total closing makes hermetic curtain, disobedient for sun-beam, Lamellas have on whole lenght a gum seal which helps with total closing and noiseless blind working.

- Steel top rail 58x56 (galvanised).
- End list and guiding rails made with extruded aluminium.
- Tape and ladder made with kevlar fibre (non-flammable fabric which resistant for stretching, breaking and mechanical damages).
- Aluminium lamellas in shape of „Z” made with sheet 0,42 mm.

2.1. Technical details for Z-90

vertical cross-section

Definitions:

H- height of blind

V - height of batch

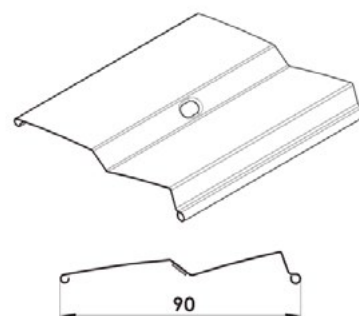

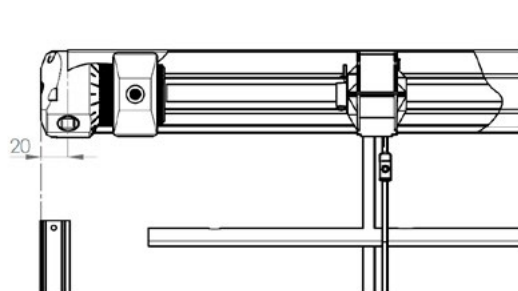

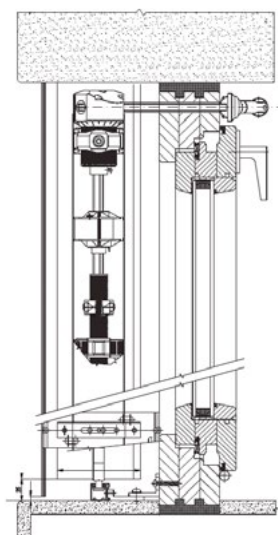

G - depth of cover sheet

(min. 130 mm, recommended 140 mm)

In standard:

- guiding rails type 1 or 2 (in standard colors)
- Top rail hangers
- Lamellas Z-90
- End list (in standard colors)
- Manual operation (crank with cardan joint 90°) or electrical operation (in standard Somfy J4WT motor or Geiger GJ56)

3801-3900	320	340						
3901-4000	325	345						

* to calculate height of cover sheet we suggest to add 35 mm to batch height (table above) – it enable to cover top rail hangers and make sure that batch will be behind cover sheet.

All prices are net prices.

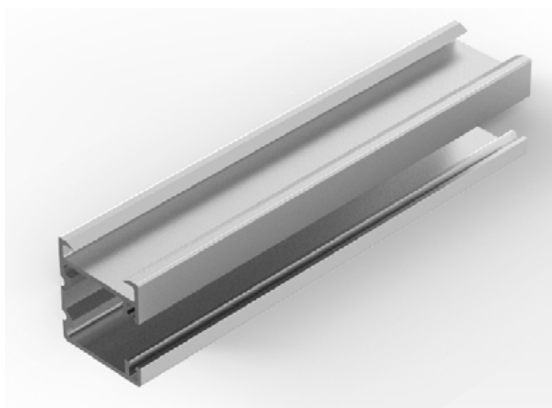

3. External blinds in top-mounted BeClever boxes

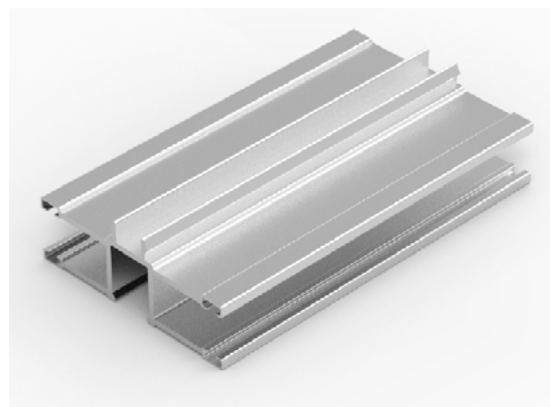

3.1. Guiding rails for top-mounted boxes

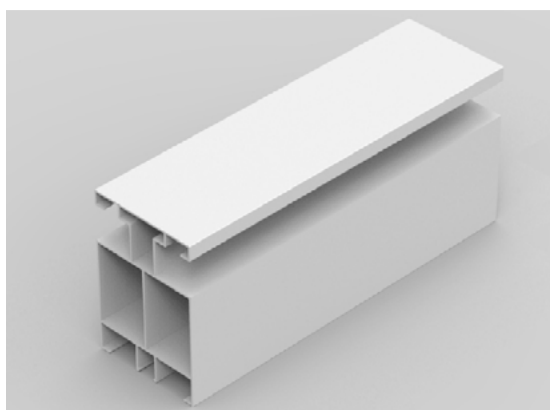

Type 2

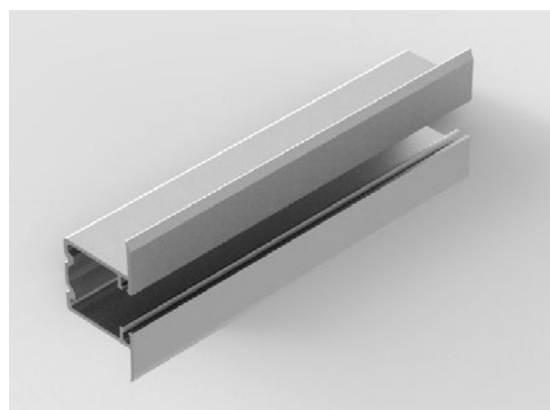

Type 2/PG-01 for anti-mosquito nets

PG-10

PG-12

Technical details

Minimal width		Maximal width	Maximal height
Manual	Electrical		
600 mm	600 mm	to 4000 mm (depends on lamellas type)	depends on lamellas type – batch cannot has more than 225 mm

Maximal width of blind with anti-mosquito net is 160 mm and maximal height is 2500 mm. Maximal surface is 3m².

Maximal height for top-mounted boxes external blinds

C-80		Z-90	
Manual	Electrical	Manual	Electrical
1600 mm	1300 mm	1800 mm	1500 mm

There is possibility to make blind above this height, but after closing not all batch will be in box.

Color of box and guiding rails PG-10	Extra
white box, guiding rail PG-10 – RAL from standard collection	incl. in price
Box – one-side veneer structural Renolit – anthracite 701605, brown 887505, nut 2178007, mahogany 2065021, golden oak 2178001, winchester 49240	+10%
Box – two-sides veneer structural Renolit - anthracite 701605, brown 887505, nut 2178007, mahogany 2065021, golden oak 2178001, winchester 49240	+20%
Guiding rails – Renolit veneer structural - anthracite 701605, brown 887505, nut 2178007, mahogany 2065021, golden oak 2178001, winchester 49240	+5%
Remaining veneers	individual quotation

* Guiding rail PG-12 and end list is painted for RAL color approximate to veneer color.

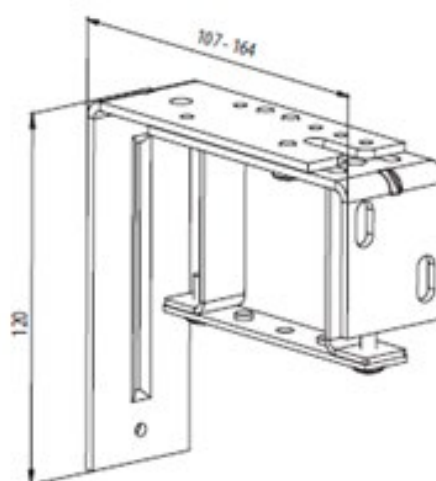

All prices are net prices.

IV. Components for external blinds

4.1. Top rail hangers incl. in price of blind

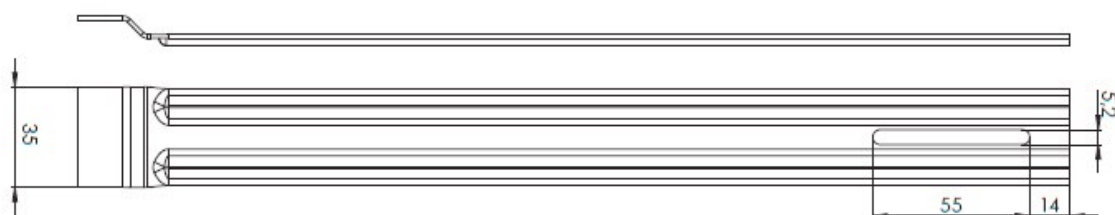

„Click” hanger

Hangers with support

Brackets for cover sheet are applied with top rail hangers

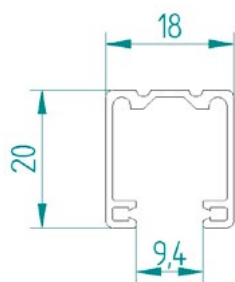

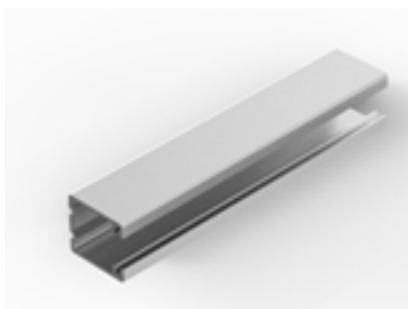

Hangers quantity depends on blind width

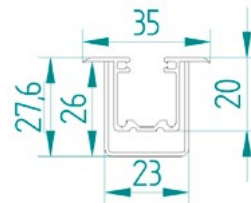

Blind width	to 1600 mm	1601-2400 mm	2401-3200 mm	3201-4000 mm
Hangers quantity and brackets for cover sheet	2	3	4	5

4.2. Guiding rails and handles

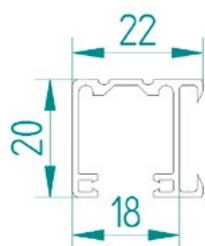

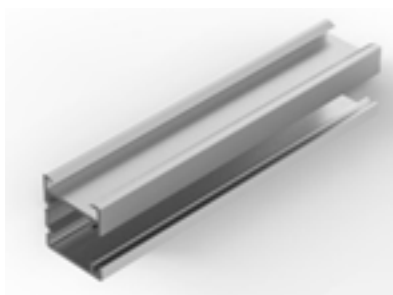

Guiding rails

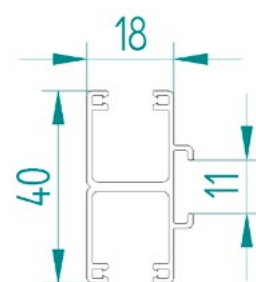

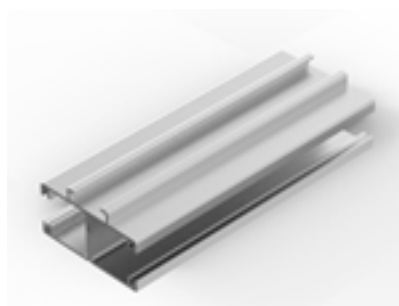

Type 1

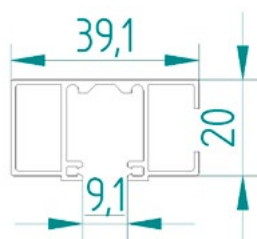

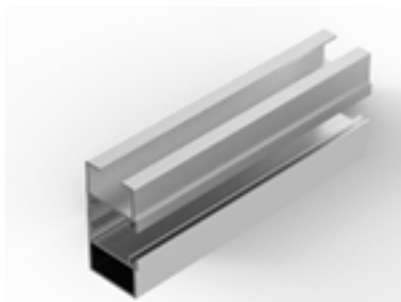

Type PT (2-parts set)

Type 2

Type D2

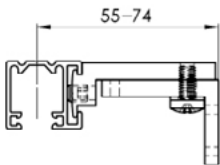

Self-portable type

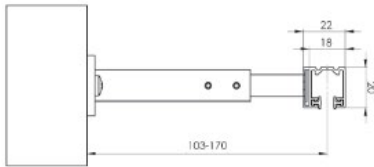

4.2. Guiding rails and handles

Handles

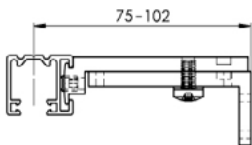

Type L1 (55-74 mm) to use with guiding rails type 2 and D2

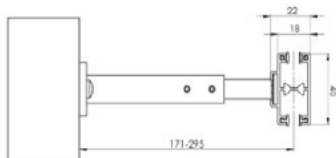

Type T1 (103-170 mm) to use with guiding rails type 2 and D2

Type L2 (75-102 mm) to use with guiding rails type 2 and D2

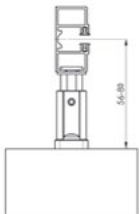

Type T2 (171-295 mm) to use with guiding rails type 2 and D2

Type L3 (103-154 mm) to use with guiding rails type 2 and D2

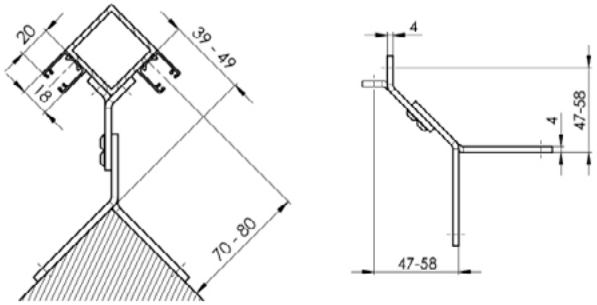

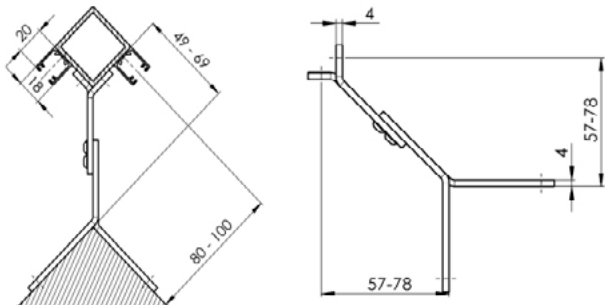

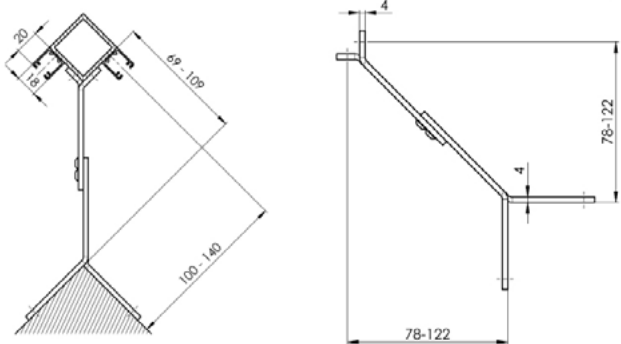

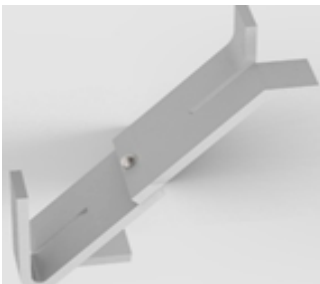

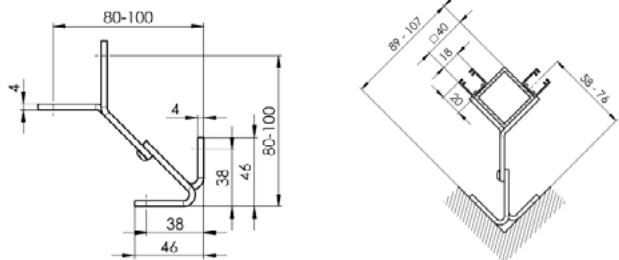

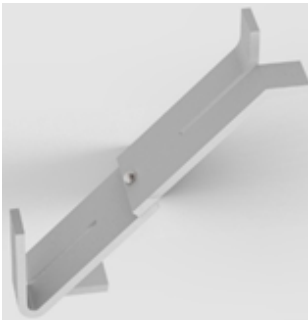

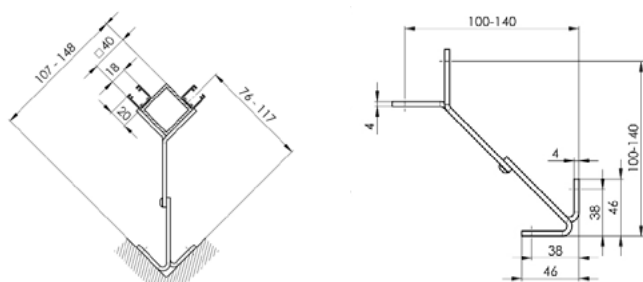

Type S - to using with self-portable guiding rails

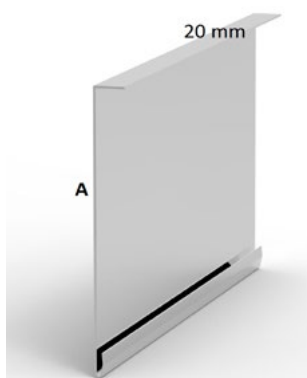

Handles quantity depends on blinds height (for one guiding rail)

Blinds height	to 1799 mm	1800-2799 mm	2800-4000 mm
Handles quantity	2	3	4

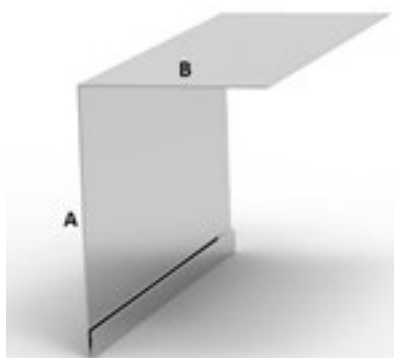

4.3. Angle connectors

external (70-80 mm)		
external (80-100 mm)		
external (100-140 mm)		
internal (58-76 mm)		
internal (76-117 mm)		

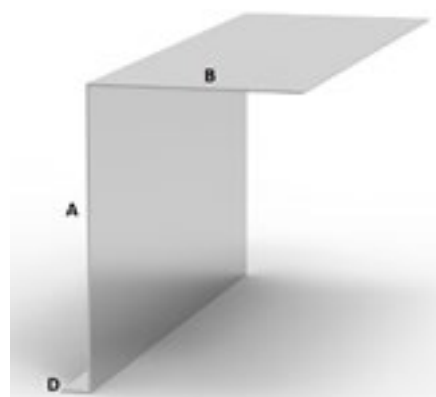

4.4. Cover sheets

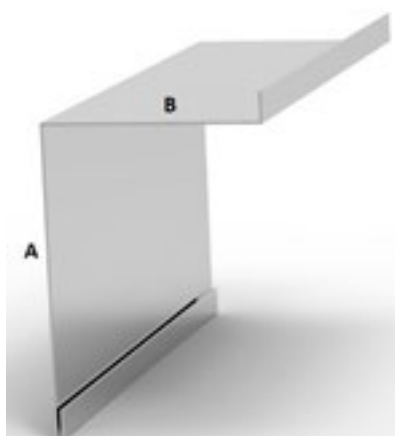

Type 0

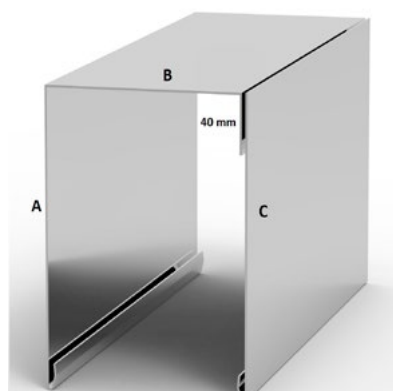

Type 1A

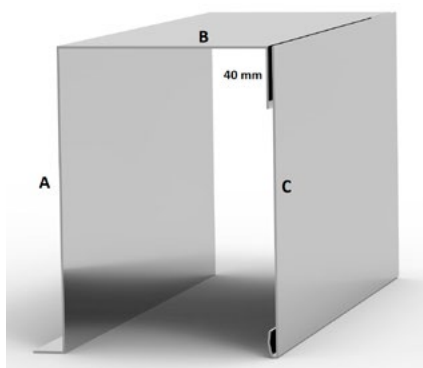

Type 1B

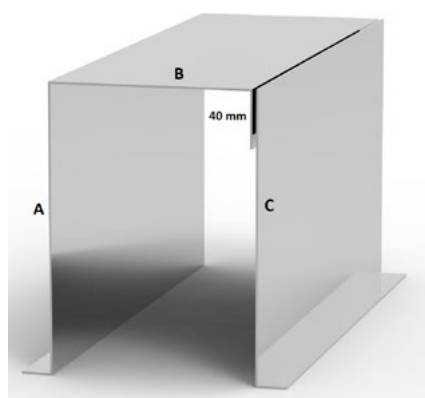

Type 2

Type 3A

Type 3B

Type 3C

*Cover sheets are painted one-side. Two-sides painting for extra charge.

Dimension	Suggested dimension
Cover sheets width	Blinds width
Size A	Height of batch +35 mm
Size B	Suggested depth of cover sheet depends on lamellas type
Size C	Height of batch +35 mm
Size D	18 mm in angulation; 20 mm as plaster carrier
Size E	18 mm in angulation; 20 mm as plaster carrier

VI. Assembly ways and measurements

	Mouting to the niche Necessary size is H, X and S 	
	Mouting on facade Variant 1 – guiding rails mouted to window frame. Necessary size is H, X and S 	Variant 2 – blind and guiding rails mouted to wall. Necessary size is H, X and S 
	Flush-mounted mouting Variant 1 – blinds with standard guiding rails, necessary size is H, X and S 	Variant 2 – blinds with flush-mounted guiding rails. Necessary size is H, X and S 
	Mouting to top-mounted boxes Necessary is width and height of window frames. Height will be extended of top-mounted box height (245 mm).	

In measurement it is necessary to include all the possible another obstacles (for example window sill, window, shutted window frame, etc.). External blinds measurement is specific and if you have doubts, please contact our technical specialist.

External blinds with flush-mounted guiding rails

Laying of flush-mounted guiding rails compared to standard guiding rails of external blinds.

Flush-mounted guiding rails mouted to architrave

Blinds with flush-mounted guiding rails lets overall cover them in architrave warming. Guiding rails are composed of two parts – part stuck into warming and appropriate guiding rail (inside of this one moves pins of lamellas). Mouting this type of blind requires make the warming with big accuracy (just the little deviation in thickness of it on the height of window frame).

WARRANTY TERMS AND CONDITIONS

1. Vertex S.A., hereinafter referred to as the Guarantor, guarantees a good quality and proper operation of a new product in accordance with the standards set for a specified product type, subject to the intended use in normal conditions.
2. During receipt of the product at the Guarantor's headquarters or on the date of product's delivery the Buyer is obliged to check product's packaging for any damages, as well as the product's completeness in accordance with the order, on pain of losing the right to question the quality and completeness of the delivery.
3. The Guarantor's warranty is valid for a period of 12 months from the date of sale. The basis of the complaint comprise jointly
 - 3.1. Proof of purchase with a date of sale of the faulty product.
 - 3.2. Installation execution according to the instructions set out in the price list and in manufacturer's (Vertex S.A.) installation instructions.
4. In case of proper submission of the complaint by the Buyer, the Guarantor agrees to:
 - 4.1. Consider the validity of the complaint within the statutory time limit.
 - 4.2. Remove defects — if the complaint is valid.
 - 4.3. Replace the product with the one that is free from defects — in case of being unable to remove the defects.
 - 4.4. In case of replacement of the defective product or defective parts with the new ones, the Buyer is obliged to return the subject matter of a complaint to the Guarantor.
5. Defects discovered during the warranty period will be removed by the Guarantor as soon as possible, however the free of charge repair or replacement of the faulty product will be preceded by an expertise of the damage on the basis of which the Guarantor shall decide if the complaint is valid.

The Guarantor's liability does not cover the costs of disassembly of the defective product and the costs of transporting the product to its manufacturer, as well as the costs of the transport back and re installation, which are borne by the Buyer in full.
6. Should the quality complaint be recognized as valid, the Guarantor agrees to reimburse the amount paid for transportation, after presenting relevant documents confirming the price by the Buyer, as well as to return the product to the Buyer on their return address at the Guarantor's own expense.
7. The Guarantor is not liable for:
 - 7.1. The Buyer or the third parties using modifications not made or not authorized by the manufacturer — Vertex S.A.
 - 7.2. Damages of the packaging or the product itself that were not reported on the date of the receipt of the product.
 - 7.3. Mechanical damages or damages resulting from improper or negligent installation, usage or storage, overloading, usage in improper conditions or improper electrical wiring.
 - 7.4. Random events occurring after the receipt of the product, in particular due to adverse weather conditions, electromagnetic interference, electric discharges and power surges in supply network.
 - 7.5. Using non-original materials or accessories.
 - 7.6. Failure to follow the recommendations set forth in the price list and manufacturer's (Vertex S.A.) installation instructions. Usage inconsistent with the instructions.
 - 7.7. The warranty does not cover normal wear and tear of original elements, parts and accessories caused by their normal operation.
8. In case of rejection of the complaint as a result of an inspection conducted by the Guarantor, the costs of the inspection and returning the product shall be borne by the Buyer.
 - 8.1. The negative complaint recognition may be appealed by the Buyer to the Guarantor in writing.
 - 8.2. Appeal deadline, referred to in Section 7.1, is 7 days from the date of notifying the Buyer by the Guarantor about the outcome of the inspection.
9. The Buyer loses their warranty rights in case of repairing, modifying or replacing damaged products and parts on their own, by persons and companies other than the Guarantor or recommended by the Guarantor.
10. Activities referred to in Section 8 the Buyer may conduct on their own, without losing their warranty rights, after receiving a written consent of the Guarantor.
11. The warranty is not given to the Buyers that did not pay for the received products.
12. The Buyer may raise liability claims against the Seller only under a cumulative fulfilling of these conditions:
 - the installation was carried out by authorized representatives of the seller
 - defects were immediately reported to the seller in writing
 - the product was mounted and used according to manufacturer's instructions
 - the product has not been modified or repaired by unauthorized persons.

The foregoing states the overall liability of the seller for defects of the subject matter of the agreement. Further claims of the Buyer, in particular statutory liability claims and consequential damages claims, including profits lost by the Buyer, are excluded.
13. Other provisions of the Buyer result from mandatory regulations, in particular on consumer sales the provisions of the Act of 27.07.2002. (Journal of Laws of 2002. No. 141 item 1176, as amended) apply.

Vertex S.A. reserves the rights to make technical changes. Prices in this price list - at the day 15.05.2018
