SUN PROTECTION SYSTEM

EVITA

V-6300

- Modern, minimalistic design
- Wide range of fabric patterns and colors
- Simple and safe adjustment
- Components from a reputable Spanish manufacturer

cassette

EVITA (V-6300)

- **Reputable, European suppliers**

The awning is made of 100% components from European manufacturers (design - Spain, fabrics - Italy).

- **Full-cassette**

Perfect protects the fabric, arms and all components from the adverse effects of changing weather conditions.

- **Multi-axis arm adjustment**

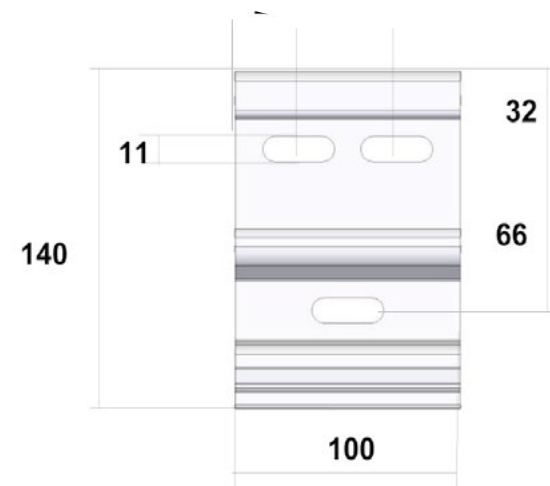

Enables precise leveling.

- **Durable powder coating**

Protection of the structure. Available colours: RAL 7016 and RAL 9006.

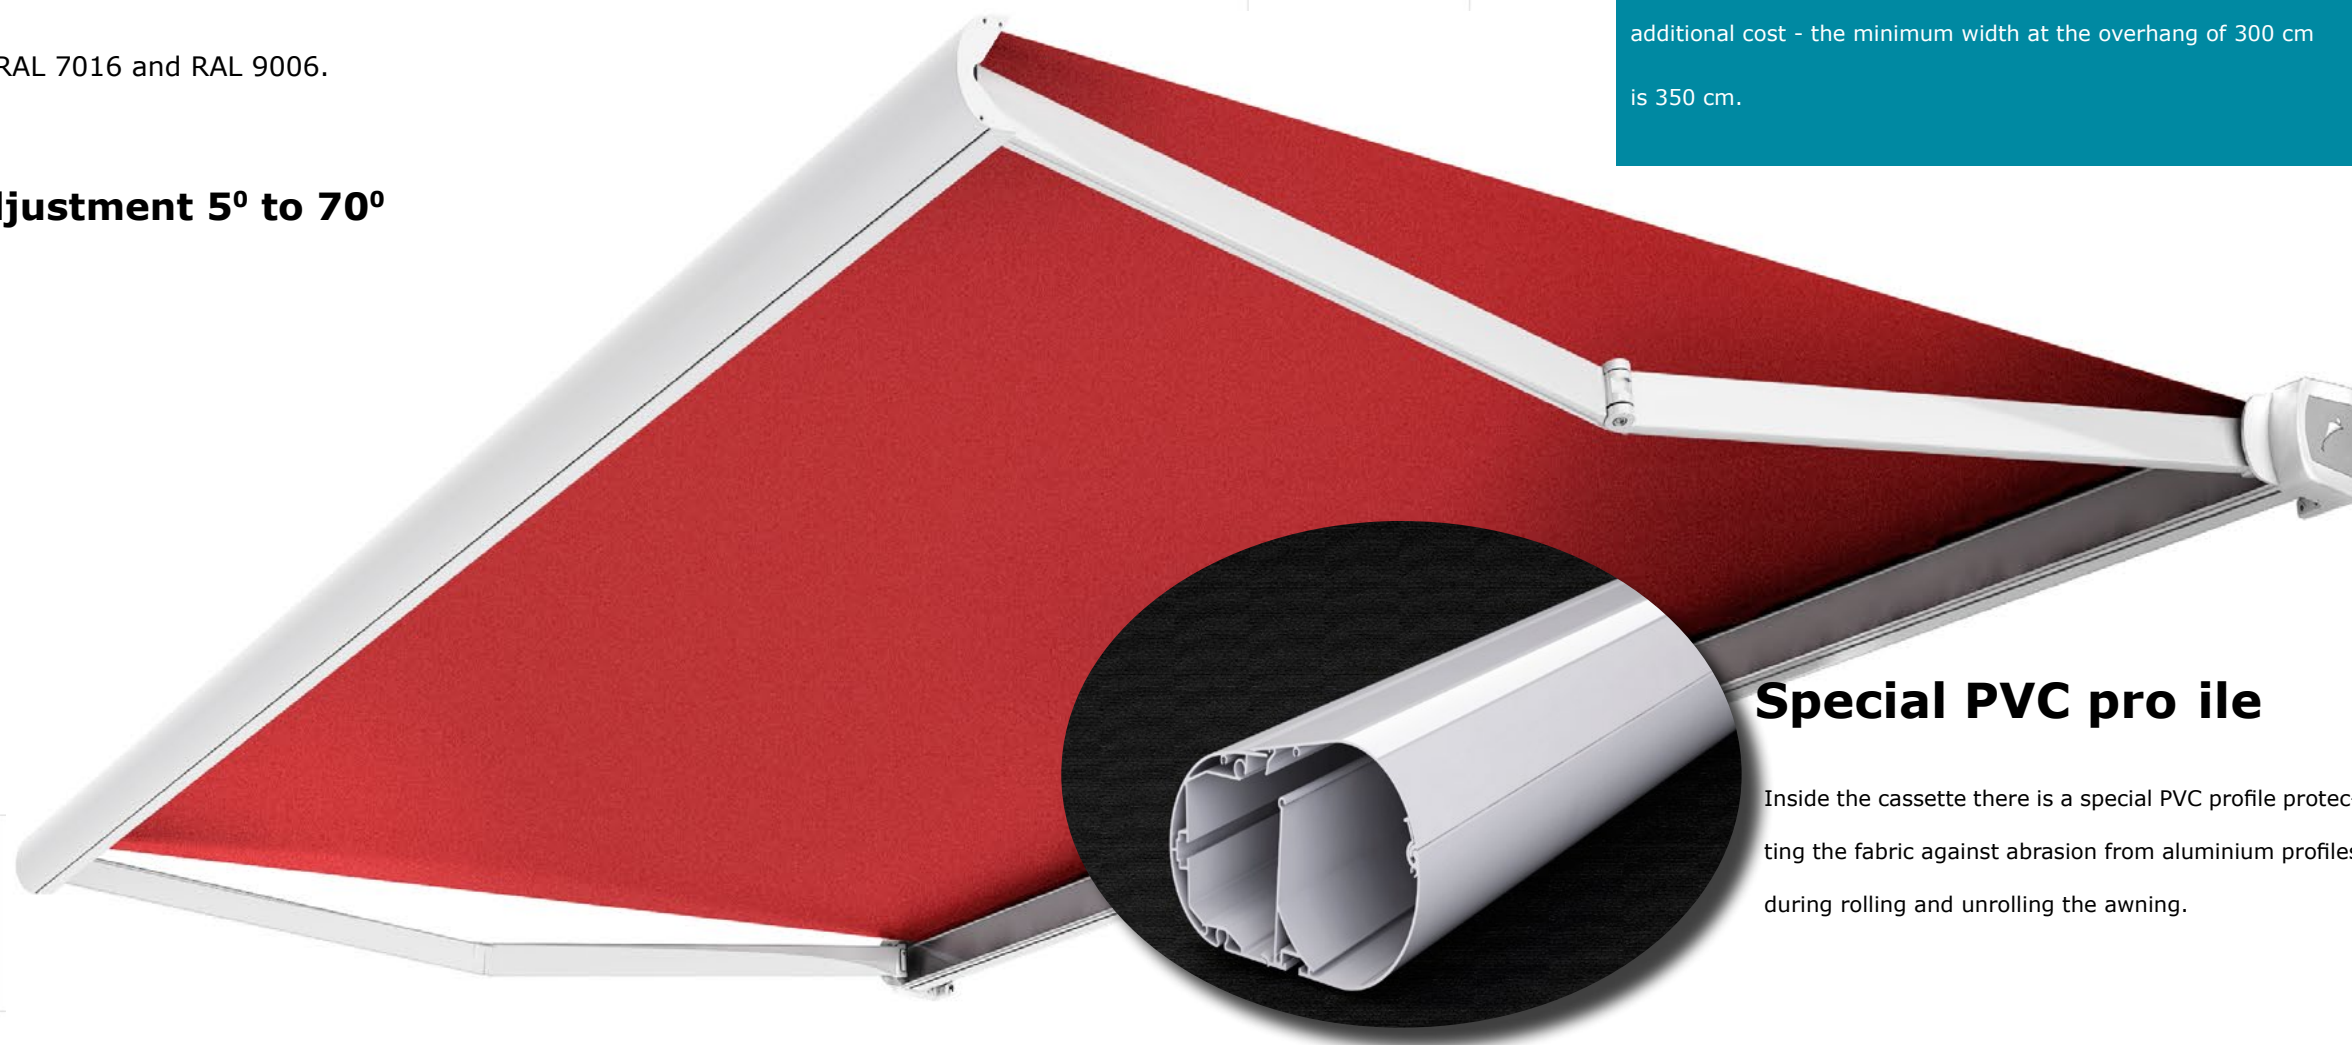

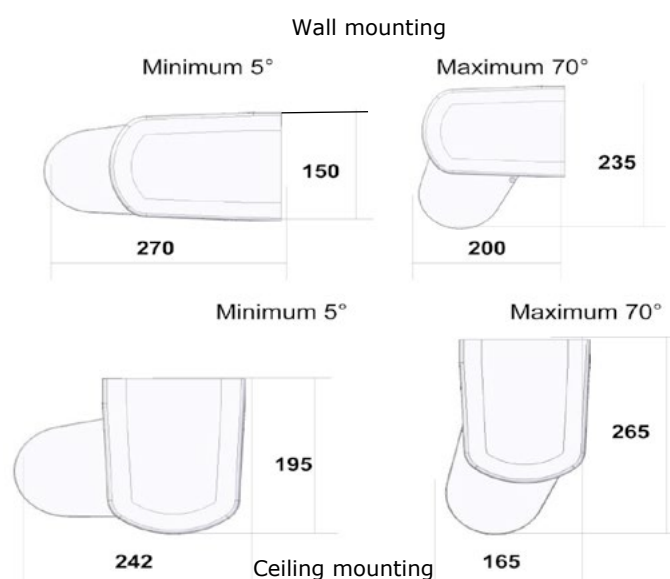

- **Wide range of arm angle adjustment 5° to 70°**

For both wall and ceiling mounting.

Cassette mounting on the same hanging brackets both to the wall and the ceiling.

The offer includes awnings with dimensions of 600x300 cm and 500x300 cm. It is possible to reduce the awning width without additional cost - the minimum width at the overhang of 300 cm is 350 cm.

Special PVC profile

Inside the cassette there is a special PVC profile protecting the fabric against abrasion from aluminium profiles during rolling and unrolling the awning.
